

Regulatory Indicators for Sustainable Energy (RISE) 2016 Country Data - Myanmar

Energy Access

Indicator	Score
Existence and monitoring of officially approved electrification plan	100
Scope of officially approved electrification plan	37.5
Framework for grid electrification	33.33
Framework for minigrids	47.5
Framework for stand-alone systems	66.67
Consumer affordability of electricity	100
Utility Transparency and Monitoring	8.33
Utility Creditworthiness	75
Total	58.54

Energy Efficiency

Indicator	Score
National energy efficiency planning	33.33
Energy efficiency entities	28.57
Information provided to consumers about electricity usage	41.67
EE incentives from electricity rate structures	44.44
Incentives & mandates: large consumers	11.11
Incentives & mandates: public sector	0
Incentives & mandates: utilities	0
Financing mechanisms for energy efficiency	0
Minimum energy efficiency performance standards	0
Energy labeling systems	0
Building energy codes	0
Carbon Pricing	0
Total	13.26

Regulatory Indicators for Sustainable Energy (RISE)

Renewable Energy

Indicator	Score
Legal framework for renewable energy	50
Planning for renewable energy expansion	40
Incentives and regulatory support for renewable energy	50
Attributes of financial and regulatory incentives	100
Network connection and pricing	0
Counterparty risk	61
Carbon pricing and monitoring	0
Total	43
Overall Score	38.27

Energy Access

Existence and monitoring of officially approved electrification plan	Score	100
Is there an officially approved national electrification plan?		Yes
If not, is there a draft electrification plan that has been prepared but not yet been approved?		No
Name of the electrification plan		National Electrification Plan
Are the electrification plan and the updates publicly available?		Yes
When was the last update of the electrification plan?		2014
Is there an institution responsible for tracking progress of the plan?		Yes
Name of the tracking institution		Ministry of Electric Power; Ministry of Livestock,

Regulatory Indicators for Sustainable Energy (RISE)

	Fisheries and Rural Development - Department of Rural Development; National Electrification Executive Committee
Is there a timeframe defined in the electrification plan?	Yes

Scope of officially approved electrification plan	Score	37.5
Does the plan target a service level (e.g., power availability, number of guaranteed hours of power supply, etc.)?		No
Details on service level target		0
Does the electrification plan include both grid and off-grid?		Yes
Does the plan include community facilities?		No
Does the plan include productive use?		No
Are there geospatial maps conveying the timeframe of planned grid extension?		Yes
Are these geospatial maps made publicly available?		No

Framework for grid electrification	Score	33.33
Does the government have a dedicated funding line or budget for electrification (e.g., funded national program, budget item, rural electrification fund to finance grid extension)?		Yes
Are there capital subsidies paid to the utilities to provide distribution systems to rural areas/villages?		Yes
Details on funding support for grid electrification		N/A

Regulatory Indicators for Sustainable Energy (RISE)

Are there consumer financing mechanisms (i.e., utility loans, on bill financing, micro-loans, etc.) and/or direct subsidies available to support the payment of connection fees by consumers?	No
Details on mechanisms to support the payment of connection fees	0
Does the government specify standards of performance on reliability along with new connections (e.g., number of guaranteed hours per day, etc.)?	No

Framework for minigrids	Score	47.5
Are minigrids legally allowed to operate in the country?	Yes	
Name and date of the regulation for minigrids	Electricity Law - 2014 (Pyidaungsu Hluttaw Law no. 44/ 2014)	
Can minigrids be owned and operated by private operators?	Yes	
Do regulations clarify what will occur when the interconnected grid reaches a mini-grid?	No	
To convert from a power producer to a power distributor that buys electricity from the interconnected grid and resells to its local customers	No	
To sell electricity to the interconnected grid operator and no longer sell electricity to retail customers	No	
To sell its distribution grid to the interconnected grid operator and receive compensation for the sale of the asset	No	
Other	No	
Do the regulations detail procedures for consumers to get connected to minigrids?	No	
Do the regulations differ by size of minigrids?	No	

Regulatory Indicators for Sustainable Energy (RISE)

Are mini-grid operators legally allowed to charge a different tariff from the national tariff?	Yes
Is there a retail electricity tariff schedule for minigrids?	No
Examples of minigrid tariffs	Mini-grid operators for biomass gasification and micro-hydropower systems are charging tariffs negotiated with the served communities. Micro-hydropower tariffs are for instance ranging from 35 MMK/kWh to 809 MMK/kWh
Name of the regulation on minigrid tariffs	2014 Electricity Law (Chapter 10)
Are there publicly funded mechanisms to secure viability gap funding for operators?	No
Do subsidies exist for minigrids?	No
Details on subsidies for minigrids	0
Name of the document referring to minigrid subsidies	0
Do subsidies exist for power generators?	No
Do subsidies exist for energy storage systems?	No
Do subsidies exist for distribution systems?	No
Do subsidies exist for monitoring systems?	No
Do subsidies exist for other equipment related to minigrids?	No
Do duty exemptions exist for minigrid systems?	No
Details on duty exemptions for minigrids	Solar equipment

Regulatory Indicators for Sustainable Energy (RISE)

Name of the document referring to mini-grid duty exemptions	Union Tax Law 20/2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for power generators?	Yes
Do duty exemptions exist for energy storage systems?	No
Do duty exemptions exist for distribution systems?	No
Do duty exemptions exist for monitoring systems?	No
Do duty exemptions exist for other equipment related to minigrids?	No
Do subsidies exist for stand-alone systems?	Yes
Do subsidies exist for solar modules?	Yes
Do subsidies exist for batteries?	No
Do subsidies exist for charge controllers?	Yes
Do subsidies exist for power conditioning equipment?	No
Do subsidies exist for safety equipment?	No
Do subsidies exist for other equipment related to stand-alone systems?	Yes
Details on subsidies for stand-alone systems	100% subsidy
Name of the document referring to subsidies for stand-alone systems	The Tax of the Union Law - 2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for stand-alone systems?	No
Details on duty exemptions for stand-alone systems	Tax Law: "No commercial tax shall be levied on the landed costs if the

Regulatory Indicators for Sustainable Energy (RISE)

	following goods are imported or on the sale proceeds if these goods are produced and sold in the country or bought and sold in the country in a trading transaction... Solar panels, solar charge controllers and solar inverters"
Name of the document referring to duty exemptions for stand-alone systems	The Tax of the Union Law - 2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for solar modules?	Yes
Do duty exemptions exist for batteries?	No
Do duty exemptions exist for charge controllers?	Yes
Do duty exemptions exist for power conditioning equipment?	No
Do duty exemptions exist for safety equipment?	No
Do duty exemptions exist for other equipment related to stand-alone systems?	Yes
Are there legal restrictions that limit the prices standalone home system retailers or service providers can charge?	No
Are there specific financing facilities available to support operators/consumers to develop/purchase stand-alone home systems?	Yes
Are there specific market financing facilities available to support operators to develop stand-alone systems?	No
Are there specific government financing facilities available to support operators to develop stand-alone systems?	No
Are there specific market financing facilities available to support consumers to purchase stand-alone standalone systems?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Are there specific government financing facilities available to support consumers to purchase stand-alone standalone systems?	No
Are there technical standards detailing the requirements for minigrids to connect the grid?	No
Are technical standards made publicly available?	No
Name of the document detailing technical standards	0
Are there safety standards for minigrids?	No
Are these safety standards made publicly available?	No
Name of the document detailing safety standards	0
Does the government implement certification programs for minigrid installers?	No
Does the government provide or endorse certification programs for one or more components or equipment required for minigrids?	No
Has the government adopted international quality standards for stand-alone systems?	No
Name of the document detailing quality standards	0
Has the government adopted international testing methods?	No
Does the regulation accept testing done elsewhere/in another country (vs in-country testing required)?	No
Is there a governmental certified program for solar equipment installers?	No
Are there environmental regulations on the disposal of solar devices and standalone home system products or components?	No
Name of document detailing environmental regulations	0

Regulatory Indicators for Sustainable Energy (RISE)

Framework for stand-alone systems	Score	66.67
Are there publicly funded mechanisms to secure viability gap funding for operators?		No
Do subsidies exist for minigrids?		No
Details on subsidies for minigrids		0
Name of the document referring to minigrid subsidies		0
Do subsidies exist for power generators?		No
Do subsidies exist for energy storage systems?		No
Do subsidies exist for distribution systems?		No
Do subsidies exist for monitoring systems?		No
Do subsidies exist for other equipment related to minigrids?		No
Do duty exemptions exist for minigrid systems?		No
Details on duty exemptions for minigrids		Solar equipment
Name of the document referring to mini-grid duty exemptions		Union Tax Law 20/2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for power generators?		Yes
Do duty exemptions exist for energy storage systems?		No
Do duty exemptions exist for distribution systems?		No
Do duty exemptions exist for monitoring systems?		No
Do duty exemptions exist for other equipment related to minigrids?		No

Regulatory Indicators for Sustainable Energy (RISE)

Do subsidies exist for stand-alone systems?	Yes
Do subsidies exist for solar modules?	Yes
Do subsidies exist for batteries?	No
Do subsidies exist for charge controllers?	Yes
Do subsidies exist for power conditioning equipment?	No
Do subsidies exist for safety equipment?	No
Do subsidies exist for other equipment related to stand-alone systems?	Yes
Details on subsidies for stand-alone systems	100% subsidy
Name of the document referring to subsidies for stand-alone systems	The Tax of the Union Law - 2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for stand-alone systems?	No
Details on duty exemptions for stand-alone systems	Tax Law: "No commercial tax shall be levied on the landed costs if the following goods are imported or on the sale proceeds if these goods are produced and sold in the country or bought and sold in the country in a trading transaction... Solar panels, solar charge controllers and solar inverters"
Name of the document referring to duty exemptions for stand-alone systems	The Tax of the Union Law - 2014 (The Pyidaungsu Hluttaw Law No. 20/2014)
Do duty exemptions exist for solar modules?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Do duty exemptions exist for batteries?	No
Do duty exemptions exist for charge controllers?	Yes
Do duty exemptions exist for power conditioning equipment?	No
Do duty exemptions exist for safety equipment?	No
Do duty exemptions exist for other equipment related to stand-alone systems?	Yes
Are there legal restrictions that limit the prices standalone home system retailers or service providers can charge?	No

Name of the document detailing technical standards	0
Are there safety standards for minigrids?	No
Are these safety standards made publicly available?	No

Regulatory Indicators for Sustainable Energy (RISE)

Name of the document detailing safety standards	0
Does the government implement certification programs for minigrid installers?	No
Does the government provide or endorse certification programs for one or more components or equipment required for minigrids?	No
Has the government adopted international quality standards for stand-alone systems?	No
Name of the document detailing quality standards	0
Has the government adopted international testing methods?	No
Does the regulation accept testing done elsewhere/in another country (vs in-country testing required)?	No
Is there a governmental certified program for solar equipment installers?	No
Are there environmental regulations on the disposal of solar devices and standalone home system products or components?	No
Name of document detailing environmental regulations	0
Are there national programs which aim to develop stand-alone systems or support the development of stand-alone systems?	Yes
Details on the national program promoting stand-alone systems	Deployment of stand-alone home systems as part of the off-grid rural electrification strategy (Department of Rural Development) / National Electrification Project

Consumer affordability of electricity	Score	100
What is the annual cost of subsistence consumption	0.710697277971499%	

Regulatory Indicators for Sustainable Energy (RISE)

(30kWh/month) as a percentage of GNI per household of bottom 20 percent of population?	
Tariff schedule / tariff structure taken into account	Electricity tariffs, Ministry of Electric power, April 2014
Is there a mechanism to support low-volume consumers such as cross-subsidization, social or lifeline tariff?	Yes

Utility Transparency and Monitoring	Score	8.33
Are the financial statements of the largest generation company publicly available?	No	
Are the financial statements of the largest transmission company publicly available?	No	
Are the financial statements of the largest distribution company publicly available?	No	
Are the financial statements of the largest retail electricity sales company publicly available?	No	
Are the financial statements of the largest generation company audited?	No	
Are the financial statements of the largest transmission company audited?	No	
Are the financial statements of the largest distribution company audited?	No	
Are the financial statements of the largest retail electricity sales company audited?	No	
Is the transmission loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?	No	
Is the distribution loss rate published in a primary official	No	

Regulatory Indicators for Sustainable Energy (RISE)

document (by the utility, regulator or ministry and/or government)?	
Is the bill collection rate published in a primary official document (by the utility, regulator or ministry and/or government)?	No
Is the amount of electricity available for sale to end-users published in a primary official document (by the utility, regulator or ministry and/or government)?	No
Is the utility operating an incidence/outage recording system (or SCADA/EMS with such functionality)?	No
Is the utility measuring the SAIDI and SAIFI or any other measurements for service reliability?	No
Are the measurements reported to the regulatory body?	Yes
Are the measurements available to public?	No

Utility Creditworthiness	Score	75
Current ratio (working capital ratio) of selected utility		25
EBITDA margin of selected utility		25
Debt service coverage ratio of selected utility		0
Days payable outstanding of selected utility		25

Energy Efficiency

National energy efficiency planning	Score	33.33
Is there legislation or a national action plan that aims to increase EE?		No
Name of EE legislation or action plan		Armenia Energy Efficiency Legislative Action Plan

Regulatory Indicators for Sustainable Energy (RISE)

Is there an energy efficiency goal or target at the national level?	Yes
Natonal target details	Updated target from Ministry of Industry: national target of 20% energy savings by 2030 based on year 2012 baseline. Units are Gwh.
Is there a target for the residential sector?	No
Target details	0
Does the target have a milestone or deadline?	No
Is there a commercial servcies sector target?	No
Target details	0
Does the target have a milestone or deadline?	No
Is there an industrial sector target?	No
Target details	0
Does the target have a milestone or deadline?	No
Is there a power sector target?	No
Target details	0
Does the target have a milestone or deadline?	No

Energy efficiency entities	Score	28.57
Are there governmental and/or independent bodies dedicated to setting EE strategy?	Yes	

Regulatory Indicators for Sustainable Energy (RISE)

Name of entity	Ministry of Industry; Renewable Energy Association of Myanmar; Myanmar Engineering Society
Are there governmental and/or independent bodies dedicated to setting EE standards?	Yes
Name of entity	Ministry of Industry
Are there governmental and/or independent bodies dedicated to regulating EE activities of energy suppliers?	No
Name of entity	N/A
Are there governmental and/or independent bodies dedicated to regulating EE activities of energy consumers?	No
Name of entity	N/A
Are there governmental and/or independent bodies dedicated to certifying compliance with equipment EE standards?	No
Name of entity	N/A
Are there governmental and/or independent bodies dedicated to certifying compliance with building EE standards?	No
Name of entity	N/A
Are there governmental and/or independent bodies dedicated to selecting and/or approving third party auditors tasked with certifying EE standards?	No
Name of entity	N/A

Information provided to consumers about electricity usage

Score

41.67

Regulatory Indicators for Sustainable Energy (RISE)

Residential customers	
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes
Commercial customers	
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes
Industrial customers	
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes
Residential customers	
At what intervals do customers receive these reports (times per year)?	12
Do the reports include the price levels customers pay for energy usage?	Yes
Commercial customers	
At what intervals do customers receive these reports (times per year)?	12
Do the reports include the price levels customers pay for energy usage?	Yes
Industrial customers	
At what intervals do customers receive these reports (times per year)?	12
Do the reports include the price levels customers pay for energy usage?	Yes
Does the regulator track utilities' compliance with laws for providing energy usage information to customers?	No

Regulatory Indicators for Sustainable Energy (RISE)

Residential customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A
Commercial customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A
Industrial customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A
Residential customers	
Do customers receive a bill or report that shows their energy usage compared to previous bills or reports over time?	No
Commercial customers	
Do customers receive a bill or report that shows their energy usage compared to previous bills or reports over time?	No
Industrial customers	
Do customers receive a bill or report that shows their energy usage compared to previous bills or reports over time?	No
All customers	
Can customers access real time feedback on energy usage (for either prepaid or post-paid systems)?	No

Regulatory Indicators for Sustainable Energy (RISE)

Do customers have the ability to manage energy usage levels remotely (through apps or other technology mediums that can track real time usage?)	No
---	----

EE incentives from electricity rate structures	Score	44.44
Residential customers		
Are customers charged a flat fee (per connection)?	No	
Are customers charged constant block rates?	No	
Are customers charged declining block rates?	No	
Are customers charged increasing block rates?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Do customers pay energy charges (per kWh)?	Yes
Do customers pay demand charges (per kW)?	No
Do customers pay reactive power charges (per kVAR)?	No
Commercial customers	
Do customers pay energy charges (per kWh)?	Yes
Do customers pay demand charges (per kW)?	No
Do customers pay reactive power charges (per kVAR)?	No
Industrial customers	
Do customers pay energy charges (per kWh)?	Yes
Do customers pay demand charges (per kW)?	No
Do customers pay reactive power charges (per kVAR)?	No
Residential customers	
Are customers charged based on real-time pricing?	No
Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No
Commercial customers	
Are customers charged based on real-time pricing?	No

Regulatory Indicators for Sustainable Energy (RISE)

Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No
Industrial customers	
Are customers charged based on real-time pricing?	No
Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No

Incentives & mandates: large consumers	Score	11.11
What is the threshold for classifying large consumers?		0
Large consumer EE mandate/incentive regulations		
Is it required for the consumption and/or savings of large-scale energy users to be tracked and documented on a regular basis?		No
Are efficiency targets mandated for large consumers?		No
Details		0
Are energy audits mandated for large consumers?		No
Are energy efficiency progress reports mandated for large consumers?		No

Regulatory Indicators for Sustainable Energy (RISE)

Interval of reports	0
Are energy-management systems mandated for large consumers?	No
Details	0
Are there penalties in place for non-compliance with regulatory obligations for large consumers?	No
Is there a measurement and verification program in place?	No
Is verification done by a third party?	No
Are there financial incentives for large consumers to invest in energy efficiency?	No
Details	0
Are there tax incentives for large consumers to invest in energy efficiency?	No
Are there other incentives for large consumers to invest in energy efficiency?	No
Details	0
Is there a program to publicly recognize large-scale users that have achieved significant energy savings measures?	Yes
Are energy savings and/or financial savings publicized?	No
Does the program offer assistance (from a government or independent entity) to large-scale users to identify energy savings investments opportunities?	No
Primary Energy Consumption (MJ - latest GTF data from 2012)	590433

Incentives & mandates: public sector

Score

0

Regulatory Indicators for Sustainable Energy (RISE)

Are there binding energy savings obligations for public buildings?	No
Are energy savings from efficiency activities at public buildings tracked (either in-house or by a third party)?	No
Are there binding energy savings obligations for other public facilities (may include water supply, wastewater services, municipal solid waste, street lighting, transportation, and heat supply)?	No
Are energy savings from efficiency activities at other public facilities tracked?	No
Is there a specific policy or mandated guidelines for public procurement of energy-efficient products and services?	No
Public procurement guidelines for EE	
Do public budgeting regulations and practices allow public entities to retain energy savings?	No
Public budgeting regulations for EE	

Incentives & mandates: utilities	Score	0
Name of utility energy efficiency regulation program		
Electricity generation		
Are utilities required to carry out energy efficiency activities in this area?	No	
Details		
Are energy savings or other target indicators measured to track performance in meeting EE requirements?	No	
Are the requirements measured/validated by an independent third party?	No	

Regulatory Indicators for Sustainable Energy (RISE)

Are there penalties in place for non-compliance with EE requirements?	No
Are there mandates or incentives for new and/or brownfield co-generation?	No
Transmission & distribution	
Are utilities required to carry out energy efficiency activities in this area?	No
Details	
Are energy savings or other target indicators measured to track performance in meeting EE requirements?	No
Are the requirements measured/validated by an independent third party?	No
Are there penalties in place for non-compliance with EE requirements?	No
Demand-side management -	
Are utilities required to carry out energy efficiency activities in this area?	No
Details	0
Are energy savings or other target indicators measured to track performance in meeting EE requirements?	No
Are the requirements measured/validated by an independent third party?	No
Are there penalties in place for non-compliance with EE requirements?	No
Is there a demand-side management department within the selected utility?	No

Regulatory Indicators for Sustainable Energy (RISE)

Do utilities provide customers incentives for demand response, such as peak-time rebates?	No
Is there public budget funding available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Is there compensation for revenue losses via a tracking account available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Are there credit lines available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Are there partial risk guarantees available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there program cost recovery available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No

Regulatory Indicators for Sustainable Energy (RISE)

Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there ESCO financing available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there on-bill financing/re-payment available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Are there any other financing mechanisms available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	0

Wind target	
Hydro target	
Biomass target	
Geothermal target	
Does a renewable energy action plan or strategy to attain the target exist?	No
Name of the action plan	0
Does the plan or strategy define the amount of investment necessary to meet the RE target?	No
The amount of investment identified	0
Is there an institution responsible for tracking progress in renewable energy development?	Yes
Name of the institution	0
Does an electricity generation plan that includes renewable energy development exist?	Yes
Name of the generation plan	0
Is the expansion plan based on a probabilistic approach?	No
Does the current transmission planning consider renewable energy scale-up?	Yes
Name of the transmission plan	0
Has the country conducted a variable renewable energy integration study?	No
Name of the integration study	0

Regulatory Indicators for Sustainable Energy (RISE)

Year of the integration study	N/A
Does the country have sufficient resource abundance to warrant a solar resource atlas?	Yes
Does the government publish or endorse a solar resource atlas or other data on the abundance and quality of the resource?	Yes
Solar atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;	Yes
Solar atlas has a spatial resolution of 5km or less;	Yes
Solar atlas is based on modeling inputs covering at least a 10 year period;	Yes
Solar atlas is accompanied by an explanation of the methodology and instrumentation	Yes
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of solar resources?	No
Has the solar resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the solar resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a wind resource atlas?	Yes
Does the government publish or endorse a wind resource atlas or other data on the abundance and quality of the resource?	No
Wind atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;	No
Wind atlas has a spatial resolution of 5km or less;	No

Wind atlas is based on modeling inputs covering at least a 10 year period;	No
Wind atlas is accompanied by an explanation of the methodology and instrumentation	No
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of wind resources?	No
Has the wind resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the wind resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a hydro resource atlas?	Yes
Does the country publish or endorse a national hydro resource map or atlas?	No
Hydro atlas is validated by ground-based water run-off data and/or site surveys from potential sites;	No
Hydro atlas is accompanied by an explanation of the methodology and instrumentation	No
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of hydro resources?	No
Has the hydro resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the hydro resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a biomass resource atlas?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Does the country publish or endorse a national biomass resource map or atlas?	No
Biomass atlas is validated by ground-based survey or officially reported data;	No
Biomass atlas is accompanied by an explanation of the methodology and instrumentation.	No
Has the biomass resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the biomass resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a geothermal resource atlas?	Yes
Does the country publish or endorse a national geothermal resource map or atlas?	No
The governmentn has collected and recorded well data at potential geothermal sites?	No
Does the government publish a national geological map?	No
The government has supported surface exploration (geological; geochemical; temp; gradient) at potential sites?	No
The government has supported test drilling at at least one site (slim bore or full well)?	No
The government has supported the creation of a reservoir model at at least one site?	No
Has the country carried out strategic geothermal resource planning or produced zoning guidance to inform the commercial development of the resource?	No
Has the geothermal resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?nt process?	No

Regulatory Indicators for Sustainable Energy (RISE)

Are the geothermal resource planning or zoning guidance outputs publically available?	No

Auction 2 - Price ceiling	No
Auction 2 - Winning bid (\$ cents/kWh)	
Auction 2 - Government body in charge	
Winning bid guaranteed off-take	No
Mandates	No
Generation premium	No
Production tax credit	No
Does the government offer other direct fiscal incentives for renewable energy (e.g. capital subsidies, grants or rebates, investment tax credits, tax reductions?)	Yes
Investment tax credit	No
Accelerated depreciation	No
Reduction in import taxes	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Reduction in sales tax or other taxes	Yes
Does the country provide prioritized access to the grid for RE?	No
Do RE projects receive priority in dispatch?	No
Are there provisions to compensate seller if offtake infrastructure is not built in time?	Yes
Are there mechanisms to compensate RE projects for lost generation due to certain curtailments after project commissioning?	Yes

Attributes of financial and regulatory incentives	Score	100
Is the market entry mechanism for private RE projects defined? (e.g. 1st come 1st served; tenders)	Yes	
Details		0
Are projects subject to development timelines or milestones?	Yes	
Are tariffs indexed (in part or in whole) to an international currency or to inflation?	Yes	
If there is a guaranteed tariff, is there a mechanism to adjust the level of the tariff for new entrants (e.g., declination)?	N/A	
If there is a guaranteed tariff, is there a mechanism to differentiate tariffs based on the size of the generation plant?	N/A	
If there is competitive bidding/auctions, are there provisions to ensure full and timely project completion (e.g., bid-bonds, project milestones, eligibility requirements)	N/A	
If there is a renewable energy mandate, can it be met with tradable certificates (e.g., RECs, ROCs, TECs)?	N/A	
Is the price subsidy/benefit implied by a renewable energy incentive program passed through in full or in part to the final	N/A	

Regulatory Indicators for Sustainable Energy (RISE)

electricity consumer?

Network connection and pricing	Score	0
Are there rules defining the allocation of connection costs?		No
What is the type of the connection cost allocation policy (i.e. shallow/deep)?		N/A
Are there rules that allow electricity customers to purchase power directly from a third party (i.e. an entity other than the designated utility in a service area)?		No
Do the rules define the size and allocation of costs for transmission and distribution wheeling charges? (e.g., wheeling charges, locational pricing?)		N/A
Do the rules consider customer type/size in determining eligibility for purchasing electricity from a third party?		N/A
connection cost document		0
Does the country have a grid code that includes measures or standards addressing variable renewable energy?		No
Is there more than one balancing area in the country?		No
Are there rules for exchanging power between balancing areas that penalize variable renewable energy (e.g. through imbalance penalties)?		N/A
Are there provisions in the power exchange rules that allow for plant forecasting?		N/A

Counterparty risk	Score	61
Does the government offer or allow backing of utility payments (e.g. through a letter of credit, escrow account, payment guarantee, or other)?		Yes
