

## Regulatory Indicators for Sustainable Energy (RISE) 2016 Country Data - Switzerland

### Energy Efficiency

| Indicator   | Score        |
|---|--------------|
| National energy efficiency planning                       | 66.67        |
| Energy efficiency entities                                | 71.43        |
| Information provided to consumers about electricity usage | 61.11        |
| EE incentives from electricity rate structures            | 96.3         |
| Incentives & mandates: large consumers                    | 66.67        |
| Incentives & mandates: public sector                      | 50           |
| Incentives & mandates: utilities                          | 0            |
| Financing mechanisms for energy efficiency                | 91.67        |
| Minimum energy efficiency performance standards           | 83.33        |
| Energy labeling systems                                   | 66.67        |
| Building energy codes                                     | 66.67        |
| Carbon Pricing  | 68.85        |
| <b>Total</b>  | <b>65.78</b> |

### Renewable Energy

| Indicator  | Score        |
|--|--------------|
| Legal framework for renewable energy                   | 100          |
| Planning for renewable energy expansion                | 83           |
| Incentives and regulatory support for renewable energy | 75           |
| Attributes of financial and regulatory incentives      | 100          |
| Network connection and pricing                         | 100          |
| Counterparty risk                                      | 100          |
| Carbon pricing and monitoring                          | 68           |
| <b>Total</b>   | <b>89.43</b> |

## Regulatory Indicators for Sustainable Energy (RISE)

**Overall Score**

51.74

### Energy Efficiency

| National energy efficiency planning                                      | Score | 66.67  |
|--|-------|--|
| Is there legislation or a national action plan that aims to increase EE? |       | Yes  |
| Name of EE legislation or action plan                                    |       | Switzerland Energy Strategy 25   |
| Is there an energy efficiency goal or target at the national level?      |       | Yes  |
| National target details  |       | Domestic greenhouse gas emissions must be reduced overall by 20 per cent as compared with 1990 levels, by 2020. 43% energy consumption savings |
| Is there a target for the residential sector?                            |       | No   |
| Target details   |       | 0  |
| Does the target have a milestone or deadline?                            |       | No   |
| Is there a commercial services sector target?                            |       | No   |
| Target details   |       | 0  |
| Does the target have a milestone or deadline?                            |       | No   |
| Is there an industrial sector target?                                    |       | No   |
| Target details   |       | 0  |
| Does the target have a milestone or deadline?                            |       | No   |

| Are customers charged increasing block rates?         | Yes |
| Residential customers                                 |     |
| Do customers pay energy charges (per kWh)?            | Yes |
| Do customers pay demand charges (per kW)?             | No  |
| Do customers pay reactive power charges (per kVAR)?   | No  |
| Commercial customers                                  |     |
| Do customers pay energy charges (per kWh)?            | Yes |
| Do customers pay demand charges (per kW)?             | Yes |
| Do customers pay reactive power charges (per kVAR)?   | Yes |
| Industrial customers                                  |     |
| Do customers pay energy charges (per kWh)?            | Yes |
| Do customers pay demand charges (per kW)?             | Yes |
| Do customers pay reactive power charges (per kVAR)?   | Yes |
| Residential customers                                 |     |
| Are customers charged based on real-time pricing?     | No  |
| Are customers charged based on variable peak pricing? | Yes |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |     |
|---|-----|
| Are customers charged based on critical peak pricing?                                   | Yes |
| Are tariffs adjusted according to seasons?  | No  |
| Do customers pay according to time-of-day electricity use or receive peak-time rebates? | No  |
| Commercial customers  |     |
| Are customers charged based on real-time pricing?                                       | No  |
| Are customers charged based on variable peak pricing?                                   | Yes |
| Are customers charged based on critical peak pricing?                                   | Yes |
| Are tariffs adjusted according to seasons?  | No  |
| Do customers pay according to time-of-day electricity use or receive peak-time rebates? | No  |
| Industrial customers  |     |
| Are customers charged based on real-time pricing?                                       | Yes |
| Are customers charged based on variable peak pricing?                                   | Yes |
| Are customers charged based on critical peak pricing?                                   | Yes |
| Are tariffs adjusted according to seasons?  | No  |
| Do customers pay according to time-of-day electricity use or receive peak-time rebates? | No  |

| Incentives & mandates: large consumers                 | Score | 66.67   |
|--|-------|---|
| What is the threshold for classifying large consumers? |       | yearly electricity consumption of more than 5 GWh |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |                                    |
|--|------------------------------------|
| Large consumer EE mandate/incentive regulations  | Energy Law                         |
| Is it required for the consumption and/or savings of large-scale energy users to be tracked and documented on a regular basis? | Yes                                |
| Are efficiency targets mandated for large consumers?   | Yes                                |
| Details  | the target is fixed by the company |
| Are energy audits mandated for large consumers?  | Yes                                |
| Are energy efficiency progress reports mandated for large consumers?   | Yes                                |
| Interval of reports  | 0                                  |
| Are energy-management systems mandated for large consumers?  | No                                 |
| Details  | 0                                  |
| Are there penalties in place for non-compliance with regulatory obligations for large consumers?                               | No                                 |
| Is there a measurement and verification program in place?  | Yes                                |
| Is verification done by a third party?   | Yes                                |
| Are there financial incentives for large consumers to invest in energy efficiency?   | Yes                                |
| Details  | Prokilowatt                        |
| Are there tax incentives for large consumers to invest in energy efficiency?   | Yes                                |
| Are there other incentives for large consumers to invest in energy efficiency?   | Yes                                |
| Details  | agreement on objectives            |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |              |
|--|--------------|
| Is there a program to publicly recognize large-scale users that have achieved significant energy savings measures?                                     | No           |
| Are energy savings and/or financial savings publicized?  | No           |
| Does the program offer assistance (from a government or independent entity) to large-scale users to identify energy savings investments opportunities? | Yes          |
| Primary Energy Consumption (MJ - latest GTF data from 2012)  | -10547.48631 |

| <b>Incentives &amp; mandates: public sector</b>  | <b>Score</b>  | <b>50</b> |
|--|---|-----------|
| Are there binding energy savings obligations for public buildings?   | No  |           |
| Are energy savings from efficiency activities at public buildings tracked (either in-house or by a third party)?   | No  |           |
| Are there binding energy savings obligations for other public facilities (may include water supply, wastewater services, municipal solid waste, street lighting, transportation, and heat supply)? | No  |           |
| Are energy savings from efficiency activities at other public facilities tracked?  | No  |           |
| Is there a specific policy or mandated guidelines for public procurement of energy-efficient products and services?  | Yes   |           |
| Public procurement guidelines for EE   | Ordinance on the organization of public procurement in the federal administration |           |
| Do public budgeting regulations and practices allow public entities to retain energy savings?  | Yes   |           |
| Public budgeting regulations for EE  | Finance Act of Confederation (the Finance Act, LFC)                               |           |

### Renewable Energy

| Legal framework for renewable energy   | Score | 100        |
|--|-------|------------|
| Does a legal framework for renewable energy development exist?                 |       | Yes        |
| Name of the Law  |       | Energy Law |
| Is private sector ownership of renewable energy generation legally authorized? |       | Yes        |

| Planning for renewable energy expansion                                     | Score | 83   |
|---|-------|--|
| Does an official renewable energy target exist?                             |       | Yes  |
| Overall target  |       | in 2030 5400 Gwh from renewable energy more than in 2000 |
| Solar target  |       |  |
| Wind target   |       |  |
| Hydro target  |       |  |
| Biomass target  |       |  |
| Geothermal target   |       |  |
| Does a renewable energy action plan or strategy to attain the target exist? |       | Yes  |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |      |
|---|------|
| Name of the action plan   | 0    |
| Does the plan or strategy define the amount of investment necessary to meet the RE target?                                | Yes  |
| The amount of investment identified   | 0    |
| Is there an institution responsible for tracking progress in renewable energy development?                                | Yes  |
| Name of the institution   | 0    |
| Does an electricity generation plan that includes renewable energy development exist?                                     | Yes  |
| Name of the generation plan   | 0    |
| Is the expansion plan based on a probabilistic approach?  | Yes  |
| Does the current transmission planning consider renewable energy scale-up?  | Yes  |
| Name of the transmission plan   | 0    |
| Has the country conducted a variable renewable energy integration study?  | Yes  |
| Name of the integration study   | 0    |
| Year of the integration study   | 2015 |
| Does the country have sufficient resource abundance to warrant a solar resource atlas?                                    | Yes  |
| Does the government publish or endorse a solar resource atlas or other data on the abundance and quality of the resource? | No   |
| Solar atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;                   | No   |
| Solar atlas has a spatial resolution of 5km or less;  | No   |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Solar atlas is based on modeling inputs covering at least a 10 year period;  | No  |
| Solar atlas is accompanied by an explanation of the methodology and instrumentation  | No  |
| Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of solar resources?                  | No  |
| Has the solar resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process? | No  |
| Are the solar resource planning or zoning guidance outputs publically available?   | No  |
| Does the country have sufficient resource abundance to warrant a wind resource atlas?  | Yes |
| Does the government publish or endorse a wind resource atlas or other data on the abundance and quality of the resource?                             | Yes |
| Wind atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;   | No  |
| Wind atlas has a spatial resolution of 5km or less;  | Yes |
| Wind atlas is based on modeling inputs covering at least a 10 year period;   | No  |
| Wind atlas is accompanied by an explanation of the methodology and instrumentation   | Yes |
| Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of wind resources?                   | Yes |
| Has the wind resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?  | Yes |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Are the wind resource planning or zoning guidance outputs publically available?  | Yes |
| Does the country have sufficient resource abundance to warrant a hydro resource atlas?   | Yes |
| Does the country publish or endorse a national hydro resource map or atlas?  | Yes |
| Hydro atlas is validated by ground-based water run-off data and/or site surveys from potential sites;  | No  |
| Hydro atlas is accompanied by an explanation of the methodology and instrumentation  | Yes |
| Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of hydro resources?                    | No  |
| Has the hydro resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?   | No  |
| Are the hydro resource planning or zoning guidance outputs publically available?   | No  |
| Does the country have sufficient resource abundance to warrant a biomass resource atlas?   | Yes |
| Does the country publish or endorse a national biomass resource map or atlas?  | No  |
| Biomass atlas is validated by ground-based survey or officially reported data;   | No  |
| Biomass atlas is accompanied by an explanation of the methodology and instrumentation.   | No  |
| Has the biomass resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process? | No  |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Are the biomass resource planning or zoning guidance outputs publically available?   | No  |
| Does the country have sufficient resource abundance to warrant a geothermal resource atlas?  | Yes |
| Does the country publish or endorse a national geothermal resource map or atlas?   | No  |
| The governmentn has collected and recorded well data at potential geothermal sites?  | No  |
| Does the government publish a national geological map?   | No  |
| The government has supported surface exploration (geological; geochemical; temp; gradient) at potential sites?   | No  |
| The government has supported test drilling at at least one site (slim bore or full well)?  | No  |
| The government has supported the creation of a reservoir model at at least one site?   | No  |
| Has the country carried out strategic geothermal resource planning or produced zoning guidance to inform the commercial development of the resource?                 | No  |
| Has the geothermal resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?nt process? | No  |
| Are the geothermal resource planning or zoning guidance outputs publically available?  | No  |

|   |              |           |
|---|--------------|-----------|
| <b>Incentives and regulatory support for renewable energy</b> | <b>Score</b> | <b>75</b> |
|---|--------------|-----------|

|   |     |
|---|-----|
| Is there at least one scheme to support renewable energy per unit of electricity generated? (e.g., feed-in tariff, competitive bidding/auction, mandates, generation premiums, production tax credits)? | Yes |
|---|-----|

## Regulatory Indicators for Sustainable Energy (RISE)

|   |   |
|---|---|
| Feed-in tariff                              | Yes   |
| Feed-in tariff - Solar                      | Yes   |
| Feed-in tariff - Wind                       | Yes   |
| Feed-in tariff - Hydro                      | Yes   |
| Feed-in tariff - Biomass                    | Yes   |
| Feed-in tariff - Geothermal                 | Yes   |
| Government body in charge                   | Swissgrid in case of "RPC" (feed-in tariff) |
| Projects guaranteed off-take                | Yes   |
| Solar Feed-in-tariff Price (\$ cents/kWh)   | 19  |
| Solar Feed-in-tariff Max. capacity (single) |   |
| Solar Feed-in-tariff Max. capacity (total)  |   |
| Solar Feed-in-tariff Closing date           |   |
| Wind Feed-in-tariff Price (\$ cents/kWh)    | 21  |
| Wind Feed-in-tariff Max. capacity (single)  |   |
| Wind Feed-in-tariff Max. capacity (total)   |   |
| Wind Feed-in-tariff Closing date            |   |
| Hydro Feed-in-tariff Price (\$ cents/kWh)   | 3   |
| Hydro Feed-in-tariff Max. capacity (single) | 10 MW                                       |
| Hydro Feed-in-tariff Max. capacity (total)  |   |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |    |
|---|----|
| Hydro Feed-in-tariff Closing date                 |    |
| Biomass Feed-in-tariff Price (\$ cents/kWh)       | 15 |
| Biomass Feed-in-tariff Max. capacity (single)     |    |
| Biomass Feed-in-tariff Max. capacity (total)      |    |
| Biomass Feed-in-tariff Closing date               |    |
| Geothermal Feed-in-tariff Price (\$ cents/kWh)    | 24 |
| Geothermal Feed-in-tariff Max. capacity (single)  |    |
| Geothermal Feed-in-tariff Max. capacity (total)   |    |
| Geothermal Feed-in-tariff Closing date            |    |
| Competitive bidding                               | No |
| Auction 1 - Year                                  |    |
| Auction 1 - Technology                            |    |
| Auction 1 - Project-specific tender and size (MW) |    |
| Auction 1 - Auction for total and size (MW)       |    |
| Auction 1 - Standard PPA and Term                 |    |
| Auction 1 - Price ceiling                         | No |
| Auction 1 - Winning bid (\$ cents/kWh)            |    |
| Auction 1 - Government body in charge             |    |
| Auction 2 - Year                                  |    |
| Auction 2 - Technology                            |    |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Auction 2 - Project-specific tender and size (MW)  |     |
| Auction 2 - Auction for total and size (MW)  |     |
| Auction 2 - Standard PPA and Term  |     |
| Auction 2 - Price ceiling  | No  |
| Auction 2 - Winning bid (\$ cents/kWh)   |     |
| Auction 2 - Government body in charge  |     |
| Winning bid guaranteed off-take  | No  |
| Mandates   | Yes |
| Generation premium   | No  |
| Production tax credit  | No  |
| Does the government offer other direct fiscal incentives for renewable energy (e.g. capital subsidies, grants or rebates, investment tax credits, tax reductions?) | Yes |
| Investment tax credit  | No  |
| Accelerated depreciation   | No  |
| Reduction in import taxes  | No  |
| Reduction in sales tax or other taxes  | Yes |
| Does the country provide prioritized access to the grid for RE?  | Yes |
| Do RE projects receive priority in dispatch?   | Yes |
| Are there provisions to compensate seller if offtake infrastructure is not built in time?  | No  |
| Are there mechanisms to compensate RE projects for lost  | No  |

## Regulatory Indicators for Sustainable Energy (RISE)

generation due to certain curtailments after project commissioning?

| Attributes of financial and regulatory incentives   | Score | 100 |
|---|-------|-----|
| Is the market entry mechanism for private RE projects defined? (e.g. 1st come 1st served; tenders)  |       | Yes |
| Details   |       | 0   |
| Are projects subject to development timelines or milestones?  |       | Yes |
| Are tariffs indexed (in part or in whole) to an international currency or to inflation?   |       | Yes |
| If there is a guaranteed tariff, is there a mechanism to adjust the level of the tariff for new entrants (e.g., declination)?   |       | Yes |
| If there is a guaranteed tariff, is there a mechanism to differentiate tariffs based on the size of the generation plant?   |       | Yes |
| If there is competitive bidding/auctions, are there provisions to ensure full and timely project completion (e.g., bid-bonds, project milestones, eligibility requirements) |       | N/A |
| If there is a renewable energy mandate, can it be met with tradable certificates (e.g., RECs, ROCs, TECs)?  |       | Yes |
| Is the price subsidy/benefit implied by a renewable energy incentive program passed through in full or in part to the final electricity consumer?                           |       | Yes |

| Network connection and pricing   | Score | 100     |
|--|-------|---------|
| Are there rules defining the allocation of connection costs?                   |       | Yes     |
| What is the type of the connection cost allocation policy (i.e. shallow/deep)? |       | Shallow |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |                                |
|--|--------------------------------|
| Are there rules that allow electricity customers to purchase power directly from a third party (i.e. an entity other than the designated utility in a service area)? | Yes                            |
| Do the rules define the size and allocation of costs for transmission and distribution wheeling charges? (e.g., wheeling charges, locational pricing?)               | Yes                            |
| Do the rules consider customer type/size in determining eligibility for purchasing electricity from a third party?   | Yes                            |
| connection cost document   | Recommendation Grid connection |
| Does the country have a grid code that includes measures or standards addressing variable renewable energy?  | Yes                            |
| Is there more than one balancing area in the country?  | Yes                            |
| Are there rules for exchanging power between balancing areas that penalize variable renewable energy (e.g. through imbalance penalties)?                             | No                             |
| Are there provisions in the power exchange rules that allow for plant forecasting?   | Yes                            |

| <b>Counterparty risk</b>   | <b>Score</b> | <b>100</b> |
|--|--------------|------------|
| Does the government offer or allow backing of utility payments (e.g. through a letter of credit, escrow account, payment guarantee, or other)? | Yes          |            |
| Information disclosure   | 29           |            |
| Are the financial statements of the largest utility publicly available?  | 0            |            |
| Are the financial statements of the largest generation company publicly available?   | Yes          |            |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Are the financial statements of the largest transmission company publicly available?   | Yes |
| Are the financial statements of the largest distribution company publicly available?   | Yes |
| Are the financial statements of the largest retail electricity sales company publicly available?   | Yes |
| Are the following metrics published in a primary official document (by the utility, regulator or ministry and/or government)?                                    | 0   |
| Is the transmission loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                | Yes |
| Is the distribution loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                | Yes |
| Is the bill collection rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                  | No  |
| Is the amount of electricity available for sale to end-users published in a primary official document (by the utility, regulator or ministry and/or government)? | Yes |
| Information Auditing   | 33  |
| Financial statements independently audited?  | 0   |
| Are the financial statements of the largest generation company audited?  | Yes |
| Are the financial statements of the largest transmission company audited?  | Yes |
| Are the financial statements of the largest distribution company audited?  | Yes |
| Are the financial statements of the largest retail electricity sales company audited?  | Yes |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |   |
|---|---|
| Monitoring Reliability  | 0   |
| Is the utility operating an incidence/outage recording system (or SCADA/EMS with such functionality)? | Yes   |
| Is the utility measuring the SAIDI and SAIFI or any other measurements for service reliability?       | Yes   |
| Are the data reported to the regulatory body?   | Yes   |
| Are the data available to the public?   | Yes   |
| Name of the selected utility  | Elektrizitätswerke des Kantons Zurich (EKZ) |
| data - 17.1. Current ratio (working capital ratio)  | 3   |
| data - 17.2 Debt Service Coverage Ratio   | 9   |
| data - 17.3 Days payable outstanding  | 36  |
| data - 17.4 EBITDA margin   | 0   |
| Current ratio (working capital ratio) of selected utility   | 25  |
| Debt Service Coverage Ratio of selected utility   | 25  |
| Days payable outstanding of selected utility  | 25  |
| EBITDA margin of selected utility   | 25  |

| <b>Carbon pricing and monitoring</b>   | <b>Score</b> | <b>68</b> |
|--|--------------|-----------|
| Is there a carbon pricing mechanism in place?  | Yes          |           |
| For any carbon pricing mechanism (e.g. carbon tax, emission trading system), what is the portion of national GHG emissions covered)? | 38%          |           |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |     |
|---|-----|
| Is there a monitoring, reporting and verification system for greenhouse gas emissions in place? | Yes |
|---|-----|
