CENTRAL GOVERNMENT

Nationwide

* GOVERNMENT OF THE REPUBLIC WILL BENEFIT WITH AN ELECTRICAL BONUS SUBSIDY TO 83% OF THE ELECTRIC SERVICE SUBSCRIBERS *

On this day, Roberto Ordoñez, Minister of the Ministry of Energy (SEN), explained that the government will fully absorb the recent increase in electrical energy for subscribers of the National Electric Energy Company (ENEE) whose consumption is from 0 to 150 kilowatt hours. and it will benefit from a gradual bonus subsidy to users who add up to 151 to 300 kilowatt hours per month.

At least 1,500,000 Hondurans will be favored through this solidarity provision of the government.

Measure by which 100 percent of the increase in electrical energy of 1,260,000 ENEE customers, representing 70 percent of the total subscribers, will be absorbed.

Simultaneously, some 240,000 customers representing 13 percent and consuming 151 to 300 kilowatt hours per month will be favored with a descending energy bonus from April to December 2019.

This initiative confirms the government's commitment to protect the country's most vulnerable population and promotes the strengthening of the family economy.
