Ministry of Energy and Power Development

FUNCTIONS

Formulate energy and power development policies;
 Develop a legal and regulatory framework for the energy sector;
 Monitor and evaluate the implementation of energy and power development policies and programmes;
 Initiate and implement reforms in the power and petroleum sector;
 Plan and coordinate energy supply and power development options;
 Attract investment in the sector;
 Oversee energy state enterprises;
 Promote the development and efficient utilisation of renewable and non-renewable sources of energy;
 Promote the use of energy efficient technologies and techniques;
 Develop a data base on energy use technologies and investment opportunities and disseminate such information; and
 Facilitate the implementation of research and development findings in the sector.
