Notification of Electricity Purchase Tariffs from Industrial Power Plants and Distributed Generation Units (Effective from ۱۴۰۴/۰۱/۰۱ | March ۲۱, ۲۰۲۵)

۰۹:۵۱ April ۲۰۲۵ در تاریخ ۱۲ ارسال توسط [leila.dehghan](#)

The Minister of Energy has announced the new electricity purchase tariffs for distributed generation units and industrial power plants for the year ۱۴۰۴ (Persian year).

Following the official directive of the Honorable Minister of Energy, reference number ۱۴۰۴/۲۵۸۹/۱۰۰ dated ۱۴۰۴/۰۱/۱۹ (April ۸, ۲۰۲۵), the proposed resolution of the Electricity Market Regulatory Board—documented in meeting minutes No. ۴۰۸—regarding the electricity purchase tariffs from distributed generation units and industrial power plants (particularly during the hot season of the year ۱۴۰۴) has been approved.

The hot season for the year ۱۴۰۴ has been defined as starting from the second half of Farvardin (early April) to the end of Mehr (late October).

For distributed generation units, the following tariffs per kilowatt-hour have been set:

Off-peak hours: ۳,۵۸۰ Rials

Mid-peak hours: ۶,۵۱۰ Rials

Peak hours: ۱۲,۳۷۱ Rials

The above rates will be applied with a ۰.۸ coefficient for power plants under ۱۰۰ megawatts, and those connected to sub-transmission or transmission networks.
